AI QA Assistant — Portfolio Project | Python, Flask, Groq AI, HTML/CSS | May 2026

Live: <https://ai-qa-assistant-b9el.onrender.com> | Code: <https://github.com/sarbani02/AI-QA-Assistant>

- Built an AI-powered QA web app that reduced test case creation time from 30 minutes to 30 seconds using Groq LLaMA API
- Developed Test Case Generator, Bug Report Generator, and Test Data Generator using Python Flask backend
- Added Excel (.xlsx) and PDF export; designed responsive UI with dark/light mode toggle using HTML and CSS
- Wrote 5 Pytest unit tests with 100% pass rate; deployed on Render with secure environment variable API key management
- Used GitHub for version control with professional README, Changelog, and Prompt Engineering documentation

Manual Testing — E-Commerce Application | Jira, MS Excel

- Designed and executed 30 test cases for Login, Registration, and Cart modules using Equivalence Partitioning and BVA
- Identified 8 defects (3 High, 3 Medium, 2 Low severity) and tracked full lifecycle in Jira Scrum board
- Documented root causes for all failed test cases

Automation Testing — Selenium Login Test Suite | Python, Selenium, Pytest

- Automated 5 end-to-end login test cases using Selenium WebDriver and XPath locators; achieved 100% pass rate
- Validated positive and negative login scenarios including invalid credentials and empty field inputs

API Testing — Postman Collection | Postman, REST APIs | May 2026

- Tested GET, POST, and DELETE endpoints with JavaScript test scripts; achieved 6/6 tests passed
- Earned HackerRank REST API Intermediate Certification
